ELLIOT INSTITUTE

The Trustees of Elliot Institute hereby present their annual report for the season 1924-1925.

For the past season arrangements were made for three entertainments as follows:

December 12. A lecture by C. Oliver Moore.

January 28. A concert by "The Jugo-Slav Tamburica Orchestra."

February 18. "Wonders of Electricity" by Mr. Louis Williams.

From the interest shown in the courses offered, your committee is fully convinced that the Elliot Institute will become a large factor as a center of community life. It should be a constant stimulus to the best things in instruction and entertainment. Again we urge suggestions as to the most helpful use of the Elliot Fund.

In behalf of the town your trustees wish to express their real appreciation of the continued interest of the founder of the Institute. Mr. Elliot's new gift will help to enlarge the usefulness of the institution.

Respectfull submitted,

ALBERT W. HOWES,
FRANCIS R. PARKER,
WALTER R. PORTER,
Trustees Elliot Institute.

REPORT OF SUPERINTENDENT OF SCHOOLS

Members of the Fitzwilliam School Board:

I herewith submit to you my seventh annual report as Superintendent, the twenty-fifth under the series of district supervision.

The number of changes in the teaching force at the close of the school year was about the same as at the close of the previous year, Miss Blodgett in District No. 10, Miss Bolton at State Line and Mrs. Wheelock, Supervisor of Music, being the only members of the teaching force to return for the present year.

As principal of the Junior High school Mr. George H. Wetmore, a graduate of North Eastern University was secured, and as assistant Miss Gladys M. Doane, a graduate of Framingham Normal school was secured to succeed Miss Lyon who declined a re-election.

Last year none of the teachers in charge of the Village and Depot schools were full normal graduates, and it was early determined to try and secure normal graduates for these positions. This, of course, meant the payment of a somewhat larger salary for these positions, but in reality a financial saving to the school district since the rating of the district by the State Board of Education will doubtless cover the increase for all teachers below the junior high grades.

The state aid turned in for the present year does not show this increase, since the rating for two years was made a year ago, but the Deputy Commissioner of Education gives assurance that the rating of normal graduates for the present year will not only be considered in the allotment for next year, but that an adjustment at that time will be made for the present year so far as funds for state aid are available.

For the Village schools Miss Edith M. Hould and Miss Dora E. Lavoie, graduates of Keene Normal school were chosen, and for the schools at Fitzwilliam Depot, Miss Ida P. Mellen, a graduate of Lowell, Mass., Normal, and Miss Beryl M. Dunn, a graduate of Keene Normal, were chosen.

The total enrollment of the schools in Fitzwilliam is 199, as compared with 228 for the last school year. In the Junior High there have been 47 enrolled as against 44 last year, but the Village and Depot schools are somewhat smaller, and the enrollment of 29 pupils at State Line last year has been reduced to 18.

The attendance at the Junior High school has been good and a fine spirit of co-operation between pupils and teachers has existed. The workshop has been turning out useful projects and both boys and girls appear to be keenly interested in their work.

The fact that this high school maintains a department in domestic arts and manual training and that the State schedule requires several laboratory periods each week in these branches, should not allow us to lose sight of the fact that English, mathematics, United States history and the History of Civilization, geography and spelling, are fundamental subjects, and thorough instruction and intensive drill are essential in these branches. Silent reading is another subject to which more attention should be given in the higher grades. Returns from tests in the fundamentals of arithmetic given in high schools throughout the state during April and June, 1924 showed that many errors in computation made by high school pupils are due wholly to carelessness in reading.

Tests in English, history, arithmetic, geography and spelling are being given in the intermediate and higher grades to be followed by Standard tests furnished by the State Board of Education later in the year.

During the summer extensive repairs were made on the Columbian school which is now in excellent condition except

in regard to the matter of lighting. The left hand and rear lighting does not comply with the requirements, and the lack of electric lights makes these rooms very dark on cloudy days.

The conditions at the town hall, especially as regards toilets facilities remain unsatisfactory. The appropriation for school toilets has not been used owing to the uncertainty regarding the possibility of a new school building. If no definite action is taken regarding a school building this year the matter of better toilet facilities should not be longer delayed.

The ordinary expenses for another year should not vary greatly from the present year. Fuel, transportation and teachers' salaries appear likely to average about as at present. The shortage of teachers that existed some years ago seems to be over, but well trained teachers do not have to accept lower salaries than have been paid, nor can they be expected to while the cost of board and other expenses remain as high as they are at present.

On several occasions I have spoken or written of the advantage that might be derived from an active Parent-Teacher organization. The East Jaffrey association, now completing its fifth year has been a great benefit to the schools of that town, and the Troy association, now in its second year has been a great help to its schools. Possibly the time has not arrived for such an organization in Fitzwilliam, but I am sure that if properly directed it might be of mutual benefit to parents and teachers.

I desire at this time to thank the school board, teachers, parents, pupils and all citizens who have co-operated in advancing the welfare of the schools during the past year.

Very truly yours,

LEWIS S. RECORD,

Superintendent of Schools.

East Jaffrey, N. H., January 31, 1925.

REPORT OF THE COMMITTEE APPOINTED TO LOOK INTO THE ADVISABILITY OF BUILDING A NEW SCHOOL HOUSE

At the last meeting of the Fitzwilliam School District, a committee was appointed to report at the next district meeting, on the desirability of building a new school house to take care of the unsatisfactory conditions arising from having part of our schools housed in the Town Hall.

Your committee has given considerable time and thought to this matter; but the problem is so large and means so much to every citizen, whatever decision is arrived at, that we think it best to give you as concisely as possible our findings on both sides of the matter, with the hope that every voter will read and ponder and try to decide before town meeting, what is best, not for himself or for his family but for the town as a whole.

We think every one will agree that housing conditions in the first 6 grade schools are far from ideal.

The schools were placed in the Town Hall ten years ago as a makeshift measure, at a time of extremely high building costs and world turmoil, when the town did not feel justified in borrowing money for a building program.

With an attendance in these grades larger than anticipated, the rooms are overcrowded; the light and ventilation is poor; the sanitary conditions are extremely poor, and there is no playground but the public street where danger from passing automobiles is always present.

Also the danger of fire is greatly increased to this grand old building which stands as a monument to our forefathers, and without which Fitzwilliam would never be the same.

In coming to a decision on our problem it seems to us there are three possible propositions to consider.

1st. Putting in more suitable toilets in the Town Hall, making some other minor improvements and leaving the schools where they are.

2nd. Putting an addition on the present High School building and having all the grades and the Junior High school there.

3rd. Acquiring some land midway between the Village and Depot and building a modern two room school house to house those grades now in the Village school house and placing the first 6 grades now in Town Hall in the old school house.

Your committee is willing to go on record as entirely opposed to the 2nd proposition.

It would be a step backward to put all our grades together in one building.

Moreover the expense of making a proper addition would be considerable and conditions would not be much if any improved over the present arrangement.

Were it not for the large expense involved and the fact that the town is in no condition now, nor is it likely to be in the future, to easily finance the cost; your committee would unqualifiedly favor the 3rd proposition.

The most suitable site for a new school house that we can find is on land owned by O. L. Gordon back of the old No. 8 school house and the present town tool house.

Mr. Gordon has made us what we consider a reasonable price on this entire field of about two acres.

Through his efforts of many years this field is entirely free from stone and no expense whatever would be necessary for grading.

In the winter this location is rough and windswept but in summer and in the fall ideal for the purpose desired with plenty of room for a ball field and any other out of door sports.

We have consulted a school architect who has given us an approximate cost on a modern building of two large rooms with a basement under the entire building.

The total cost of land and a building suitably equiped will be close to $12,000.00.

The chief arguments for building a new school house and putting it in the above location are these:

Present conditions are extremely unsatisfactory both for the children and for the townspeople.

A building midway between the Depot and Village would come within the legal walking distance of both villages and a saving of possibly $200 per year would be made by the town on transportation although the state would save a considerably larger sum.

The problem which we face would not be materially changed even if the present 9th grade should be abolished as some suggest.

The town is obliged to furnish schooling or pay the tuition of scholars until they have passed the 8th grade unless, before that time, they have reached the age of 16 years.

With the tendency to increase out of town tuitions at Keene and other places, it is desirable to supply as much schooling as possible at home.

Should a new building be built the cost of running the schools would not be materially different than at present.

A building once built would not, like a state road, be a continual expense for maintenance and repairs.

As against all this is the one big question—Can this town, committed as it is to State road construction; with little prospect of a lightening of the burden in the near future; with a tax rate this year the fourth largest in the state, find a way to finance an undertaking like this, even though desirable?

We believe that a town's first duty is for the education of its children in proper and sanitary buildings, but when we see the constant stream of trucks taking taxable property in the

shape of logs and lumber out of town, we wonder where the taxes to pay for these things are coming from.

As we see it, it would not in any case be feasible to finance this project other than by long time notes or bonds with yearly payments included interest, not to exceed $1,000, and even to do this would necessitate economy and saving in other town expenditures.

We submit this report hoping at least it will set you thinking and that an intelligent vote may be the result.

Respectfully submitted,

FRANCIS R. PARKER,
ALBERT W. HOWES,
LOLIE R. PIERCE,
Committee.
